DC to AC Inverter

Part no.	Description
42-0006	DC-AC Inverter 12 Volt
42-0007	DC-AC INverter 24 Volt

- Input:12 or 24VDC.
- Maximum output 220V-150 Watt 50Hz.
- Auto-detecting wrong battery cont. Ex 12V/24V.
- Output short-circuit protection.
- Battery low pre-alarm.
- Battery low alarm and shut down.
- Over-load and heat pre-alarm.
- Over-load and heat alarm and shut down.
- Applications: Notebook, Coin-Note counters, Lamps etc.

## SAVE TIME

### Model 2500

- Solid coin counter for fast and accurate counting of all common coins.
- Manually operated and portable to allow counting at areas where no electricity is available.

### Model 2501

- Same as model 2500 but equipped with batch stop feature to fill coin tubes and bags with a pre-set amount of coins.

#### Specifications:

##### Counting speed:

Up to 1800 coins per minute.

##### Coin diameter:

16-33mm (adjustable).

##### Weight:

Weight Model 2501: 4.8kg.

Part no.	Description
31-2500	Manual counter
31-2501	Manual counter with stop

## SAVE TIME

### Model 2507

- This model can be operated both electrically and manually.
- Standard equipped with batch stop feature.

#### Specifications:

##### Counting speed:

Up to 1800 coins per minute.

##### Coin diameter:

16-33mm (adjustable).

##### Weight:

Weight: 5.6kg.

Part no.	Description
31-2507	Electrical with stop

### HANDY COIN 4000

- This machine can count metal coins as well as plastic tokens.
- Due to its manual operation and its light weight, it can be carried effortlessly to locations where no electricity is available.

#### Specifications:

##### Counting speed:

Up to 1500 coins per minute.

##### Coin diameter:

16-34mm (adjustable).

##### Weight:

Weight: 3.8kg.

Part no.	Description
170-0001	Manual

### HANDY COIN 4001

- This model has a digital display and can be electrically operated or manually.
- Smaller coins than those, for which the machine was set for, are sorted off at the front of the machine.

### HANDY COIN Electrical

- This model can be operated both manually and electrically.
- It has batch stop feature to fill coin tubes and bags with a pre-set amount of coins.

#### Specifications:

##### Counting speed:

Up to 1500 coins per minute.

##### Coin diameter:

16-34mm (adjustable).

##### Weight:

Weight: 7kg.

##### Weight Handy Coin Electrical: 6kg.

Part no.	Description
170-0003	Electrical
170-0004	Electrical/sorting

## CATCOIN

### CATCOIN 101

- Portable electronic coin counter with off-sort and Batch stop features.
- Through the use of sensor technology a fast, accurate and trouble free counting of all coins is guaranteed.
- In addition this machine allows easy coin tube filling.

#### Specifications:

**Counting speed:**  
approx. 2000 coins per minute.  
**Coin diameter:**  
14-35mm (adjustable).  
**Weight:** 9kg.

Part no.	Description
171-0001	CC101

## CATCOIN

### CATCOIN 202

- Desktop coin counter with off-sort and batch stop functions.
- Same functions as CatCoin 101 but equipped with a large bowl that gives this machine a large counting capacity.
- Optional accessories: large customer display and foot switch.

#### Specifications:

**Counting speed:**  
approx. 2000 coins per minute.  
**Coin diameter:**  
14-34mm (adjustable).  
**Bowl capacity:**  
4000 coins.  
**Weight:** 11kg.

Part no.	Description
171-0202	CatCoin 202
171-0202-1	External display
171-0202-2	Footswitch

## REIS EUROSYSTEMS

### REIS 1001 - Princess

- This coin counter treats pre-sorted coins with high accuracy.
- Banks and financial institutes alike have operated this low noise, high-speed counter for over 10 years.
- A large number of accessories can be supplied to convert this machine into a coin tube filler.

#### Specifications:

**Counting speed:**  
approx. 2800 coins per minute.  
**Coin diameter:**  
15-35mm (adjustable).  
**Weight:** 31kg.

Part no.	Description
172-0001	CC1001

## REIS EUROSYSTEMS

### REIS 1003 - Princess

- Technically identical to model Reis 1001. However now equipped with a 10-litre hopper to enable handling of large coin quantities.
- A level sensor controls automatically the coin feeding.

#### Specifications:

**Counting speed:**  
approx. 2800 coins per minute.  
**Coin diameter:**  
15-35mm (adjustable).  
**Weight:** 35kg.

Part no.	Description
172-0003	CC1003
